Introduction

About Vetro Power: Your Nanocoating Partner

Vetro Power, owned by the Zyx Chemicals Group, specialises in the development of sustainable and high-performance coatings for various surfaces. We offer a complete OEM (Original Equipment Manufacturer) solutions, providing everything from formulation to packaging, branding, and production. Our nanocoating solutions are designed to offer superior protection, long-lasting durability, and eco-friendly applications.

What We Offer:

Innovative Nanocoating Solutions: Water-based, Non-Toxic formulation that protects against stains, water, dirt, and environmental damage.

Sustainable Manufacturing: Solutions with a commitment to eco-friendliness.

Global Business Support: We help you create a brand that stands out in the international market.

Complete Range of Nanocoating Solutions

At Vetro Power, we specialize in offering a wide range of high-performance nanocoating solutions. These include:

PRODUCT NAME	APPLICATION	KEY FEATURES	PRIMARY BENEFITS
VP Fabric & Upholstery Protector	Fabrics, upholstery, and textiles	Water & stain repellent, UV protection, maintains fabric breathability	Protects against spills, stains, and sun damage; extends fabric life
VP Porous Stone Protector & Impregnating Sealer	Porous stone surfaces like marble, granite, and tiles	Deep penetration, stain resistance, and durable protection	Long-lasting protection from moisture, stains, and environmental wear
VP Natural Wood Protector	Wooden surfaces (furniture, decks, etc.)	Waterproofing, UV resistance, and natural look preservation	Prevents water damage, fading, and weathering; extends the life of wood
VP Natural Wood Protector Termite Prevention & Fire-Retardant	Wooden surfaces, structural wood	Dual protection: termite resistance and fire retardant properties	Comprehensive protection from pests and fire hazards, enhancing wood safety
VP Carpet & Rug Protector	Carpets, rugs, and fabric flooring	Stain repellency, dirt protection, and easy cleaning	Protects fibres from spills and stains, making carpets and rugs easier to maintain
VP Auto Glass Rain Repellent	Automotive glass (windshields, side windows)	Hydrophobic coating, anti-fogging, improves visibility	Water repellent properties improve driving visibility and reduce the need for wiper use
VP Metal & Stainless Steel Shield	Metal surfaces, stainless steel fixtures	Corrosion resistance, water and dirt repellency	Protects metal from rust and oxidation, preserving surface quality
VP Nano Dynamis Anti-Corrosion Protection	Industrial & commercial metal applications	Advanced anti-corrosion protection for harsh environments	Prevents rust and corrosion in challenging industrial and environmental conditions
VP Footwear Protector	Footwear (leather, fabric, suede)	Water & stain repellency, maintains breathability	Extends the life of footwear by protecting against weather, spills, and stains
VP Solar Panel Nano-Shield	Solar panels	Anti-dust, water-repellent, self-cleaning	Enhances solar panel efficiency by keeping surfaces clean and free of debris
VP Home Glass Nano-Shield	Home glass surfaces (windows, shower screens)	Hydrophobic, anti-fogging, scratch-resistant	Keeps glass cleaner for longer, easier maintenance, and increased clarity
VP Helmet Nano-Shield	Helmets (motor cycle, sportshelmets)	Water repellent, anti-fogging, easy cleaning	Improved visibility and reduced maintenance for helmet visors
VP Suede & Nubuck Protector	Suede, nubuck, and delicate leather	Water & stain repellency, maintains softness	Protects delicate leathers from moisture and stains without affecting the feel of the material

Build Your Own Brand With Vetro Power

Innovative Solutions for Your nanocoating

Why Choose Vetro Power?

At Vetro Power, we take care of every aspect of building your brand, so you can focus on your business growth. Our comprehensive services include:

Product Development & Formulation:

Expert guidance on product formulation to create customized nanocoating solutions that meet the specific needs of your target market, ensuring optimal

Brand Support & Expertise:

From packaging to brand communication we help strengthen your brand identity and build trust in the market with tailored solutions and industry expertise.

Global Regulatory Compliance:

We ensure your products meet international regulatory standards, guaranteeing smooth market entry and peace of mind.

Bulk Purchase Solutions for Every Need

Flexible Bulk Options For Global Distribution, As Per The Requirement

From small-scale local distributors to large multinational corporations, we offer flexible bulk purchasing options to keep your supply chain efficient and profitable.

Bulk Purchase Sizes Available

5L.

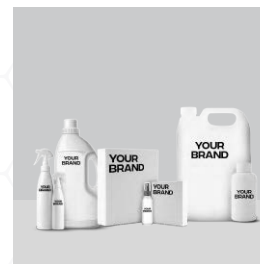

20L.

30L.

200L

Intermediate Bulk Containers (IBC's)

Custom Nanocoating Kits

Launch ready-to-use kits for consumer or industrial applications, designed to give your brand a professional edge.

What is included in this?

The Kits include

- Application Tools
- Instructions Manual
- Branded Bottles

Premium Packaging

Market-ready packaging that enhances your brand's appeal and credibility.

Concentrates for Large-Scale Applications

Cost-Effective Concentrates for Industrial and Commercial Use

Vetro Power's nanocoating concentrates are the ideal solution for large-scale industrial applications. They offer the same high-performance protection at a fraction of the cost, allowing for significant savings on large projects.

Key Benefits of Concentrates

High-Performance Protection: Durable protection against environmental damage and wear and tear.

Economical: Concentrates reduce product usage without compromising on performance.

Flexible Use: Custom formulations tailored for industry specific needs and scalable for various sectors, from construction, automotive to home care, etc.

Join the Future of Nanocoatings Today!
