Technical Data Sheet (TDS)

VP CERAMIQ GLASS+ Nano Coating

Vetro Power CERAMIQ GLASS+ Nano Coating is a high-performance solvent-based nano coating (isopropyl alcohol system)

APPLICATION AREA:

Glass, windows, ceramic surfaces, porcelain, tiles, façades, skylights, balustrades, and other non-porous surfaces.

MATERIALS:

Glass, ceramic, porcelain, tiles, and non-absorbent substrates.

PHYSICAL CHARACTERISTICS:

Appearance	Clear to light yellow liquid
Odour	Alcohol-type
Density	approx. 0.79 g/cm ³
Flash Point	approx. 12°C
Boiling Point	approx. 82°C
Solubility	Soluble in water

FEATURES:

- Hydrophobic and oleophobic surface effect
- Easy-clean / self-cleaning performance
- Reduces adhesion of dirt and contaminants
- Maintains original surface appearance
- Suitable for glass and non-porous surfaces

APPLICATION METHOD:

Vetro Power CERAMIQ GLASS+ Nano Coating is supplied ready-to-use.

The surface must be clean, dry, and free from dust, grease, and residues.

Apply using microfiber applicator or spray method.

Apply in thin, uniform layers for optimal performance.

Allow proper drying and curing under controlled conditions.

Professional application is recommended.

CONSUMPTION:

Depends on surface and application method (thin layer application recommended).

NOTE

Product is a highly flammable liquid. Keep away from heat, sparks, and open flames.

Ensure adequate ventilation during application. Use only in well-ventilated areas.

Do not inhale vapour or atomised spray.

Warning Advice: We recommend wearing suitable protective clothing. In case of contact with skin, immediately rinse off with water. Do not swallow. Avoid contact with eyes. In case of contact with the eye or mucosa, immediately rinse off with water. In the event of symptoms occurring, seek medical treatment. Keep out of reach of children!

General advice: Do not inhale atomised spray and the liquid product.

Zyax Chem Pvt. Ltd. is not liable for damages to the product, as a result of dirt entering the bottles and canisters, e.g. after opening the containers. Zyax Chem Pvt. Ltd. is also not liable for improper application of the product if the surfaces have been recoated for any reasons, without Zyax Chem Pvt. Ltd.'s prior written agreement, nor for any damage to or deterioration of the coating system arising from causes beyond the control of Zyax Chem Pvt. Ltd., including but not limited to impact, abrasion, mechanical damage, neglect, malicious damage, fire damage, pollution and abnormal weather conditions, neither for failure associated with exposure of the coatings to abrasive, chemical substances, abrasive scouring, hydrofluoric acid and highly alkaline chemicals such as bleach, potassium hydroxide and sodium hydroxide and/or if the coated surfaces have not been maintained in accordance with the supplier's recommended maintenance procedures. All information is based on today's state-of-the-art technology. As to the above-mentioned information, we do not lay a claim to completeness, these are only to be understood as possible examples for application areas. Due to a large number of surfaces and object conditions, the buyer/user is not relieved of the duty to professionally verify, in his own responsibility, that our materials are suitable for the intended purpose according to the respective object conditions. In all other respects, our general conditions of sale apply. If the new product information is issued the validity of the old version expires.
